Omni8C & Omni16C Backlit Remote Display

The Omni8C and Omni16C Remote Displays provide 8/16 points of display in a stand-alone panel-mount package without electronics. Available in dual Backlit LED or Sidebar LED indicator windows. These displays provide panel indication where no integral alarm handling logic is required. Ideal for use with the

Omni16C RLU (Model 1479B) or directly connect to your PLC. Common positive or common negative switching options are available. Integral lamp test feature enhances system reliability. These displays provide an ideal low cost alternative to individual panel indicators.
